# Go On Assignment

## and explore the wild in our parks

**You are invited** to the Golden Gate National Parks **BioBlitz** and Biodiversity Festival, March 28-29, 2014! Join National Geographic, the National Park Service, the Golden Gate National Parks Conservancy, and the Presidio Trust for two days of celebrating biodiversity, exploration, and discovery.

**Sign up** to be on one of the many teams of scientists, students, and the public exploring the parks' amazing natural resources—from windswept beaches all the way to towering redwood forests—to find as many species as possible in 24 hours. Enjoy hands-on science and nature exhibits, food, art, and entertainment for all ages at the Biodiversity Festival.

**Being part of BioBlitz**, you can:

- Meet a wide range of individuals and organizations at the forefront of conservation and science
- Work alongside top scientists to discover, count, and document the living creatures in the parks, from microorganisms all the way up to the tallest tree
- Contribute your discoveries to the parks' official species list
- Help understand and protect the extraordinary biodiversity of your local national parks

To learn more and see how you can participate, visit [nationalgeographic.com/bioblitz](http://nationalgeographic.com/bioblitz) and [nps.gov/goga](http://nps.gov/goga)
