

SUBJECT: DoD NR Webinar Series: Intro to the Avian Knowledge Network and Information Planning and Conservation System, February 4, 1:00PM ET

“Introduction to the Avian Knowledge Network and Information Planning and Conservation System”

Thursday, February 4, 2016 (1:00 PM - 2:00 PM ET)

The next presentation in the DoD Natural Resources webinar series will feature Dr. Eric Kershner with the U.S. Fish and Wildlife Service (USFWS). In concert with many partners, USFWS is developing new tools to improve access to migratory bird data, decision support analyses, and direct project-related recommendations for reducing impacts to migratory birds and their habitats. Two of these tools are the Avian Knowledge Network (AKN) and the Information, Planning and Conservation system (IPaC). This presentation will provide an overview and demonstration of both systems and discuss how these tools can benefit the Department of Defense.

To join the webinar, go to: <https://dodnatres.adobeconnect.com/webinarseries/>

Conference Number: 1-877-885-1087

Participant Code: 884-304-3266

If you have never attended an Adobe Connect meeting before, you can test your connection at:
