

MONARCH WORKSHOP “TRAIN THE TRAINER”

Zilker Botanical Garden, Austin, TX

June 29, 2018

8:30AM-3:30PM

Main purpose of this Workshop:

This workshop is a one day course on monarch biology, ecology, and conservation. You will learn the basics of monarch habitat creation and conservation and you will leave the course with the knowledge and confidence to engage diverse groups to take action on behalf of the monarch butterfly.

Main Topics

- Monarch anatomy, biology, life cycle and migration.
- Monarch threats: parasites, disease, land use, and pesticides, among others.
- Milkweed ecology, nectar plants, and monarch waystations.
- Outreach tools and materials, agencies and conservation groups involved in monarch conservation activities.
- Citizen Science, communication skills, interpretation, and role play.
- How to recruit and structure a successful workshop/presentation.

Registration is required

Space is limited

Suggested donation:

\$35.00/person that includes:

- USB drive with presentations and materials to create your own presentations
- Printed materials
- Box Lunch
- Refreshments
